

## SUMMARY

Computer Science Engineering student (B.Tech, 2027) at Gurunak Institute of Technology, Hyderabad. Experienced in full-stack mobile and web development using Flutter, Firebase, React.js, Python, and REST APIs. Shipped two production apps — CampusHub and GradBridge — serving 50–100 active campus users. Co-inventor on a patent filing for GradBridge, an alumni and career networking platform. Leadership experience as IEEE Student Branch Technical Lead and GDG Web Development Lead. Hands-on exposure to LLM APIs, prompt engineering, and AI-driven application development. Open to full-time roles and internships — remote, hybrid, or on-site — across software, product, and technology domains.

## EXPERIENCE

### 2025 - PRESENT

#### Technical Lead at IEEE Student branch - GNI

Architected and shipped [ieeegnitic.org](#) (React.js + Tailwind CSS), the official branch portal serving 150+ visitors/month.

Recruited and led a 4-person technical team; reviewed all production code and set engineering standards

### 2024 - 2025

#### Web Development Lead at GOOGLE DEVELOPER GROUPS ON CAMPUS - GNI

Designed and ran a 7-day Web Development Bootcamp (April 2025) attended by 150+ students — covered HTML/CSS/JS/React from zero to deployed project

Mentored 150+ students through the GEN-AI Bootcamp (Feb 2025), providing live technical support on Google Cloud and Gemini exercises

## PROJECTS [GITHUB](#)

### CampusHub – Smart Campus Events, Notices & Lost/Found Assistant (Flutter, Firebase, Cloudinary) [APP-APKLINK](#)

Sole developer of a campus companion app (Flutter + Firebase) with 50–100 active users — implemented role-based auth, Cloudinary image pipeline, and 24-hr story expiry logic from scratch

### GradBridge – Alumni & Career Networking Platform for Student Mentorship, Jobs & Opportunities (Flutter, Firebase) [APP-APKLINK](#)

Built an alumni–student networking platform (Flutter + Firebase) with real-time Firestore feeds, dual role dashboards, and opportunity listings — Co-inventor on Indian Patent Application No. 202641063645 filed on 20 May 2026 for GradBridge's real-time cloud-based alumni networking architecture.

### IEEE-GNI Official Website – IEEE Student Branch Portal (React, Tailwind CSS,)

Sole developer of the official IEEE branch portal ([ieeegnitic.org](#)) — built in React.js + Tailwind CSS, responsive across all devices, representing 200+ branch members online.

## SKILLS

|           |                                                                       |
|-----------|-----------------------------------------------------------------------|
| Languages | Python (Primary) , java , Dart                                        |
| Frontend  | HTML5 , CSS3 , JavaScript , React.js , Flutter                        |
| Backend   | Firebase (Authentication, Firestore, Cloud Functions, Security Rules) |
| Cloud     | Google Cloud Platform, Firebase, Cloudinary                           |
| CS Core   | Data Structures & Algorithms (DSA), OOPS, DBMS, OS, CN                |
| AI/ML     | LLM APIs (OpenAI/Anthropic), Prompt Engineering, AI Agent Workflows   |
| Tools     | Git, GitHub , vs code , Figma                                         |
